FEDERAL COMMUNICATIONS COMMISSION INTERFERENCE STATEMENT  
This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Warning: Operation of this equipment in a residential environment could cause radio interference.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

이 기기는 업무용(A급) 전자적합기기로서 판매자 또는 사용자는 이 점을 주의하시기 바라며, 규정인의 지침에 서 사용하는 것을 목적으로 합니다.

**Instalación del hardware**

Utilice los tornillos provistos con el kit de montaje para avisar la staffa di montaggio sul fondo dell'unità (fare riferimento ai disegni illustrati sopra). Per il montaggio su rack, avviate la staffa di montaggio in qualsiasi posizione comoda sul rack. Per il montaggio a parete, utilizzare il orificio della vite centrale della staffa di montaggio per fissare la unità su una parete.

**Nota:** Los tornillos del bastidor para montar la unidad no están incluidos. Recomendamos que utilice tornillos transversales Phillips M5 x 12 tipo I.

**Instalación punto a punto**

(Facultativo) Usar un cable de conexión a tierra para conectar el terminal de conexión a tierra del extensor a un objeto idóneo fijado a tierra.
